

Chanchira Kittimongkhonwattana

About me

I am interested in designing websites that focus on creating user-friendly interfaces, effective communication with users, and websites that are both interesting and trustworthy.

Work Experience

2019

High school

Prasartratprachakit

2021

Bachelor

of computer engineering

King Mongkut's University of

Technology Thonburi

Spot the Difference game

In this project, we will work as a group to develop a game using Python as the coding language. Additionally, we will need to create graphics to be used in the game.

2023

Coffee Shop Website

In the Databases course, we developed a coffee shop program that involved designing the program, managing data, and writing code using CSS, HTML, and Java. The project included both front-end and back-end development, along with creating documentation as supplementary material.
